Subject: Draft DEQ/EPA Enforcement approach and timeline
Attachments: 2014 07 CFAC Site Strategy.docx

Flag: Follow up

Enforcement Confidential

As a follow up item from a DEQ/EPA conference call last week, I've put together this draft strategy outlining the purpose and timeline of our ongoing efforts at the Columbia Falls Aluminum site. Essentially DEQ will be working on obtaining an AOC in the next couple of months and EPA will be working on an HRS package in the interim to propose the site if DEQ is unable to reach agreement with Glencore. I'll be removing some of the internal EPA information (specifically the items in *italics*) prior to sending this to DEQ.

This is an internal deliberative document at this point. Of course when we send it to DEQ it won't be so I want to make sure to incorporate all suggestions prior to doing so. Let me know if you think there should be more detail in this document?

Thanks,
Rob
